

Figure it Out!

Video Evaluation

The goals of each video:

- Provide a complete understanding of the assigned question
- Use a variety of media including video clips, diagrams, PowerPoints/Notebook slides
- Video must have included a complete understanding of the terms used to address the question.

Challenges:

Each group addressed one of these challenges:

- How islands are formed
- Features of the Ocean floor: Trenches
- Features of the Ocean floor: Seamounts
- Features of the Ocean floor: mid-ocean ridges
- Region of the ocean: Abyssal plain
- Region of the ocean: Continental slope
- Region of the ocean: Continental shelf

Each Group will use the following evaluation form to assess the completed projects

Requirement	2	1	0
Presentation	Presentation was clear and concise. Information was presented in a professional manner. Cue cards were read while maintaining eye contact. Voice-overs were clearly read.	Presentation was pleasing to the eye and easy to view, however, the information was not presented in a clear way.	Presentation lacked clarity and completeness.
Research	All the important information was covered. When presentation was finished, you felt much more knowledgeable about the subject	Information was presented, but some of the information was not clear	Very little of the presentation made sense.
Production	Movie is well organized and elements (video, slides, etc) selected display the concept which is described by the script. Cue cards were easy for reporter to read	Movie is supplied with elements (video, slides, etc), but could be more organized. The elements were adequate, but did not fully help explain concept. Cue cards could have been easier to read.	Little effort was used to determine which elements were necessary and in the right sequence.
Writing	Script was well written with no grammatical mistakes. Script was clear and writing was concise and not wordy.	Script addresses the information, but is not clear. The writing is wordy and not concise. Grammar problems are visible.	Script does little to help with the information. Script lacks organization and clarity. Obvious grammatical mistakes.
